

# “Oral Appliance Therapy for Snoring and Sleep Apnea”

Continuing Education Course sponsored by: 

Please join Keller Laboratories, Inc. for a special lecture presentation intended for general dentists and staff explaining the clinical use of oral appliances for the treatment of Sleep Disordered Breathing (SDB).

Dentists and staff will gain a basic understanding of SDB, namely snoring and Obstructive Sleep Apnea (OSA). This two hour lecture will describe the mechanics of snoring and OSA. Using readily available screening tools, attendees will be able to identify the signs and symptoms of OSA. They will also become familiar with the most common OSA treatments including CPAP, Oral Appliance Therapy, surgery and lifestyle changes. The course includes a discussion of the designs and function of oral appliances, including TAP® and EMA®. The steps to form relationships with referring physicians to create a multidisciplinary treatment approach will also be explained.

## Location:

Keller Laboratories  
160 Larkin Williams Industrial Ct.  
Fenton, MO 63026

## Date

Friday, October 15, 2010

## Time:

Registration- 8:30 am
