

New team members can expect, in the first two weeks:

- Basic technical training, which includes –
  - Dental anatomy
  - Dental Laboratory products
  - Dental laboratory manufacturing techniques
  - Impression materials
  - Model pouring
  - Articulators
- Keller cultural training, which includes-
  - Vision, mission and core values
  - Safety
  - Ergonomics
  - Lean Manufacturing
  - Keller's strategic philosophies on:
    - Marketing
    - Product, Profit, Consistency System
    - Strategic Priorities

After the first two weeks of basic training and orientation, a new team member can expect 4 to 16 weeks of technical training, depending on the position and skills required.
